

# Agile for support in 5 min

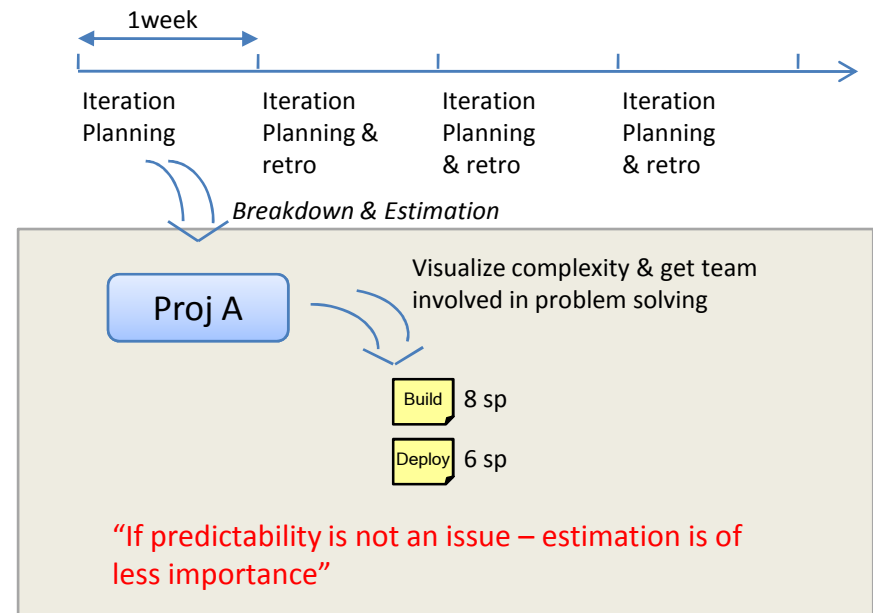

## Problems

## The Kanban board

## Timeline

# Agile for support in 5 min

## Reporting & follow up

## Daily routine

1. Standup
  - What did I do yesterday
  - What will I do today
  - Any impediment stopping me
2. Prioritisation update by PO
3. Breakdown of stories to fill "Ready for work" (on need basis)

## Typical task "ready for work"

## Team roles

### Product owner

Responsible for end value delivered  
 Prioritises teams work  
 - But can never override Work In Progress limit

### Scrum master

Puts team first  
 Verifies progress towards done  
 Process coach  
 Confronts the brutal facts

Most often the line manager

## Questions?

Sometimes, it is good to have expertise handy to avoid getting stuck. Just call.
